Network Management Policies

CARF Standard 12

206 NAC 3-003.01A

Revised: RGB 11/13/17

■ Data Collection, Analysis, & Performance Improvement Policy

Region V Systems shall focus on strategic and tactical issues for the purpose of monitoring performance for its Provider Network, using a series of indicators and targets that are based on data collection from participating providers. The data collected shall include key topic areas regarding how the participating provider fulfills the terms of its contract with Region V Systems. Data shall be used by Region V Systems to identify areas of performance improvement, support public accountability, and position Region V Systems with referral sources, payers, and other stakeholders.

See corresponding procedures for “Data Collection, Analysis, & Performance Improvement”
