Phonevite – Advance Reminder of RGB Meeting

Potential adjustment to EPC:

- Region 5 currently contracts with Mary Lanning Hospital in Hastings. Mary Lanning provides EPC beds when needed by law enforcement from four counties on the west side of our service area. Region 5 also contracts with Methodist Hospital in Fremont. Methodist provides EPC beds when needed by law enforcement from two counties on the north side of our service area. Methodist recently let Region 5 know they no longer want to contract for this service as of July 1, 2026. Region 5 reached out to Methodist to find out what they would need in order to renew their contract. Region 5 will continue negotiations with them.
- DHHS is negotiating with Bryan Medical Center and CHI (CommonSpirit Health) to utilize hospital assessment funds for people placed on EPC and to offset expenses. Some hospitals will receive an increase in funding over the next several years. In Omaha (R6), CHI – Lasting Hope, is being asked to self-fund with these funds vs DBH paying. CHI and DBH are continuing to negotiate. Bryan Medical Center currently covers individuals on EPC if MHCC is full or if there are physical morbidities. The potential negotiations are that Bryan will keep the individual to finish out treatment if they were inpatient Mental Health Board commitment or the person voluntarily wanted to stay and offsetting costs to counties by \$250,000.00.

VCRC Report:

Rourke provided page 25 as an update to data received for the first several months of service at VCRC. She explained that some of the data seems drastic due to the first 5 months of service, there were only 5 beds. After moving to their permanent location, beds increased to 16.
